Short Description

Veterinary Assistant and Veterinary Science Instructor

Description

MEET YOUR INSTRUCTOR

MS. KYLEA CACHU

Hi! Thank you for your interest in Vet Assisting! I can't wait for you to join us and learn all about animals and how to take care of them!

MY BACKGROUND

My passion for animals started in high school. During my free time I would volunteer at animal shelters and hospitals and decided to make it into a career and became a Veterinary Technician. As my knowledge for the field grew with my education, so did my passion for teaching the younger generation entering the field.

MY PURPOSE

I became an instructor because I want to foster a new generation of veterinary assistants who are up to date on new techniques and who want to change the world one pet at a time. I strive to teach my students to be kind and knowledgeable, and work together as a team so they may be the best versions of themselves.

FACTS ABOUT ME

- Before I was in veterinary medicine I worked at Starbucks, proof that it is never too late to start your journey.
- I have experience in many different field of veterinary medicine but my favorite fields are emergency and internal medicine.
- My dog Pochita, a Dogo Argentino rescue is our beloved class mascot and teaching assistant!
- I have a Fear Free Veterinary Certification and I implement that into my teaching and teach fear free and low stress veterinary medicine.
